INSPECTION SUMMARY

Project Name: Côté Gold Mine Project
Proponent Name: IAMGOLD Corporation
Inspection Date: September 12, 2024

Project Description:

IAMGOLD Corporation is proposing the construction, operation, decommissioning and abandonment of the Côté Gold Mine Project, which includes an open-pit gold mine, an on-site metal mill and structures for diverting water, located 20 kilometres southwest of the community of Gogama in northeastern Ontario. The Designated Project would have an ore input and ore production capacity of 36,000 tonnes per day, with a life of approximately 17 years.

The Enforcement Operations Team of the Impact Assessment Agency of Canada (IAAC) conducted a site inspection of the Côté Gold Mine Project on September 12, 2024. The project is in the operation phase. The inspection was part of the planned inspections for the project.

The inspection was carried out by IAAC Enforcement Officers designated under the *Impact Assessment Act* to assess compliance with the following conditions:

Condition 3 Fish and fish habitat

Condition 4 Migratory birds

Condition 5 Current use of lands and resources for traditional purposes and socio-economic

Condition 6 Health of Indigenous Peoples

Condition 7 Physical and cultural heritage and structure, site or thing of historical, archaeological, paleontological or architectural significance

Condition 8 Accidents or malfunctions

If you have questions or comments relating to the Agency's Enforcement Operations Team, or if you have reason to believe that there has been a contravention of the *Impact Assessment Act*, you may contact us at enforcement-applicationdelaloi@iaac-aeic.gc.ca
