EVENT INVITE

First Mining Gold invites you to learn more about the Springpole Gold Project and the advancements made on the environmental assessment with a four-part series of presentations and Q&A with members of the First Mining Gold team and their consultants, WSP.

This presentation will provide an overview of where the Springpole Project is in the environmental assessment process and updates on the project's optimizations made based on feedback received to date.

You are encouraged to actively participate in the planning of this project and provide information, comments or questions. Your feedback is appreciated.

Join the 1st event of our series on November 7th at 7 PM ET / 6 PM CT
